

RainDance Technologies Inc.

POSITION DESCRIPTION

Title: **Research Associate, Fluidics**
Reports To: **Manager of Fluidics**

RainDance Technologies, Inc. is a biomedical technology company devoted to developing and commercializing a proprietary droplet-based microfluidics platform. The core of our technology is the generation of stable, nano-liter sized droplets that act as the functional equivalent of a test tube, or a well on a microtiter plate. RainDance recognizes that the rate and scale of research is accelerating dynamically, and in order for researchers to keep pace with these demands, they need the benefits of high quality individualized reactions generated on a massive scale. Our vision is to be the worldwide leader in sample processing and analytical solutions that provide a new standard of data quality.

POSITION SUMMARY:

RDT is seeking a research bio-engineer, experimental biophysicist, or applied physicist to support next generation microfluidics development for biological applications.

ESSENTIAL FUNCTIONS:

- Demonstrated desire to work in a bioengineering laboratory
- Executing experiments supporting assay development for RNA/DNA amplification, analysis and other types of biological applications.
- Interacting with a multidisciplinary team of scientists and engineers
- Maintenance of laboratory equipment and inventory levels for supplies
- Ensure continued safety of laboratory environment
- Excellent problem-solving, analytical, and communication skills
- Microfluidic design and implementation
- Fluorescence-based bioassay development
- Quantitative image analysis of droplet streams
- Troubleshoot and calibrate instruments
- Serve as a part of product development & launch team
- Other tasks as reasonably requested.

QUALIFICATIONS:

Required:

- B.S. in biological or chemical engineering, applied biology, biophysics, or a related field
- Demonstrated ability to work in an interdisciplinary team setting
- The ability to overcome technical challenges in a fast paced, commercial environment
- Excellent communication and organizational skills

RainDance Technologies Inc.

Desired:

- Experience in microfluidics and fluorescence-based microscopy
- Experience in computer-aided design of fluidic circuitry
- Experience with emulsions and multiphase flows

Benefits

RainDance Technologies offers a valuable benefits package as part of your compensation. The company is committed to providing all employees with a broad range of competitive benefit programs to meet personal and financial needs. Some of the benefits available to full-time employees are:

- Medical & Dental Insurance
- Health Care Flex Spending Account
- Dependent Care Flex Spending Account
- 401(k) Retirement Savings Plan
- Employee Stock Ownership Plan
- Basic Life Insurance
- Voluntary Term Life Insurance
- Basic Accidental Death & Dismemberment Insurance
- Business Travel Accident Insurance
- Short-term Disability
- Long-term Disability
- Vacation, holidays, and sick time pay
